Alba the Hundred Year Old Fish

Published by Big Picture Press

Written and illustrated by Lara Hawthorne

Coral reefs are some of the oldest ecosystems on earth and can date back to around 240 million years ago!

Healthy coral reefs are very busy and noisy places

Coral reefs take up a very tiny amount of ocean space, but are home to around a quarter of all sea animals

Why did the coral blush?
Because the sea weed!

What did the ocean say to the shore?
Nothing! It just waved!
